

## D.H.R. NDM6 Diesel Loco in 7/8ths scale

**Item Code:** NDM6SE

**Scale:** 7/8"=1foot (1:13.7)

**Set:** 1 complete unpainted loco (w/o RC & sound units)

**Gauge:** Factory set insulated steel wheels for 45mm gauge.

**Dimensions:** L=392mm (cab rear to radiator end); H=128mm (footboard top to roof top); W=152mm (cab roof ends).

**Description:** Complete brass built DHR Diesel NDM6 loco in 7/8ths scale, similar in features to our RTR NDM6 in 16mm scale. All brass body work and chassis with cast and machined brass fittings. Detailed photo-etched body overlays. Ready to install RC, sound and battery pack. Powered by two powerful motors and all metal drive trains

**Features:**

1. Complete brass built chassis and body shell, with detailed photo-etched body overlays, including vents, latches, louvers, makers/number plates (in Hindi & English), and radiator grill.
2. Cast and machined head/marker/fog lamps, hand rails, steps, brake cylinders, lifting tackles, hooks, sand box/fuel tank/radiator filler caps, cleats, hatch covers, leaf springs, air horns, and axle boxes.
3. Working doors & hatches, windows are glazed.
4. Powered by dual high torque 12v DC motors driving all metal drives, on both axles.
5. Prototypical 'D' style DHR buffer couplers.
6. Model ready to take RC, sound units and 12v 2.5Ah+ battery pack. RC, sound units and battery pack can easily be housed in the bonnet.
7. In cab controls & electrical fittings are factory installed including 3-way power switch, sound & light switches, charging socket and 10A fuse & holder, LED directional head/marker & fog lights.
