

## Lister Blackstone RM3 Gas mechanical Locomotive

- Item Code:** PLRM3
- Scale:** 16mm=1foot (1:19)
- Gauge:** 45mm or 32mm (factory set)
- Dimensions:** Length=160mm (over buffer beams); Width=65mm; Height=128mm (above rail top); Weight=950grams (with battery pack)
- Min Radius:** 600mm
- Model Features:**
- All brass, aluminum and steel construction
  - Cast & machined brass/aluminum fittings
  - Prototypical body rivet work using actual miniature rivets
  - Chassis and power bogies are silver soldered for rigidity
  - Photo-etched Brass radiator grill and machined aluminum adjustable height couplers with steel pin

## Lister Blackstone RM3 Gas mechanical Locomotive

- Cab windows are glazed as in prototype
- Powered by a 4.5v high torque DC motor and fitted with all metal worm reduction gear drive (all 4 wheels are powered)
- Each model is fitted with a single MOSFET manual speed controller unit
- Directional LED head lamp on motor (forward direction only)
- 4v 0.3Ah sealed battery pack and terminal clips supplied with each model (charger not supplied)
- Dashboard controls include Main power/charging 2-way slide switch, Charging socket and Lights switch
- Direction control switch on cab side, speed is adjusted by turning brake column wheel inside cab
- Chemically blackened steel wheels as per G1MRA standards, on spring steel axles
- Axle boxes have brass bush bearings
- Snap-fit bonnet for easy access to battery pack and control circuit
- Each model is shipped in a styrofoam storage box

**Paint schemes:** **Industrial Yellow, Orange, Field Grey or Olive Green**

**Availability:** Currently Available [WW](#)
